

NGL Colloquium SoSe 26

118919. Department of Neural Basis of Learning

RUHR
UNIVERSITÄT
BOCHUM

RUB

Join us Fridays at 12:00 pm in GA 04/187 or via Zoom. Reach out to get the link!

Jesus Ballesteros, PhD	Neural Basis of Learning, RUB	17.04: Intro day *
Zefan Zheng, MSc	Predictive Brain Lab, RUB	24.04: The feature filtering function from consciousness to working memory
Jesus Ballesteros, PhD	Neural Basis of Learning, RUB	08.05: Data curation café I **
Sumit Roy, PhD	Center of Medical Psychology and Translational Neuroscience, RUB	22.05: Assessing the role of anodal prefrontal direct current stimulation in rescuing stress-induced working memory deficits
Alaleh Sadraee, MSc	International Graduate School of Neuroscience, RUB	05.06: Neural correlates of resting-state networks and extinction learning in pigeons: fMRI studies
Various lab members	Neural Basis of Learning, RUB	19.06: FENS poster feedback day *
Michael Chimento, PhD	Evolutionary Biology and Environmental Sciences, UZH	26.06: Methods for studying social transmission in wild-living animals
Farina Lingstädt, MSc	Neural Basis of Learning, RUB	03.07: Neural recordings of color working memory in jackdaws
Jesus Ballesteros, PhD	Neural Basis of Learning, RUB	17.07: Data curation café II **
Jane Francescon, BSc	Neural Basis of Learning, RUB	24.07: Auditory categorisation in jackdaws
